2017-18 Turnstile Warranty
Aeroturn 5 Year Zero-Maintenance

All Installed Mechanical Components, otherwise known as the factory area, 
are fully warranted for 5 years PROVIDED this area is not violated in any significant, as determined 
by Aeroturn, way. Aeroturn accepts no consequential damages.

Included:
All parts & labor to repair or replace are included in the 5 year warranty, provided:
1. Upon investigation, the damage or malfunction was caused by Aeroturn.
2. If the components are not damaged in any way but have malfunctioned causing the Turnstile 
to not work properly.
3. Phone diagnosis & technician support to the fullest extent possible in support of Turnstile 
functionality.

Not Included:
1. Trips to site by Aeroturn for diagnosis, repair or replacement.

Through extensive testing & field experiences, all Aeroturn mechanisms are expected to exceed 10,000,000 cycles. Preventative Maintenance programs are available if you are considering an extended Warranty.

Contact Factory prior to attempting to repair Turnstiles.
If damage occurs during a service attempt by non-certified personnel, warranty is voided.

Note: All electronic components are fully warranted for 1 Year from date of installation. All above conditions apply. All Turnstiles are put through a thorough 10,000 cycle factory burn-in to minimize early electronic component field failures.

* This document must accompany the Aeroturn specific product Performance Specification. Aeroturn Turnstiles must be capable of 10 million cycles without scheduled service or maintenance.
